## **Introduction: Humble Beginnings**

Many people do not realize that they are being surrounded by numbers in their daily life, their potential and fate closely intertwined with these numbers.

Every day we experience, our dates, time, home address and car plates are all defined by numbers. I have already discussed the transformational impacts that numbers that can have on our daily lives and our future. For a more in-depth discussion on the holistic formula behind numbers, please refer to my introductory eBook [Ezier Code : Control Your Destiny](#).

The electronic device that we use most frequently daily and which most people cannot do without, our mobile phones, plays an integral role in defining our achievements in life. It is not so much the phone model that determines our level of success, but the accompanying phone number that comes with it.

It is very hard for me to verbally express the power of numbers per se with language. The best way for us to appreciate the power of numbers is to personally experience its effects. Therefore, I will be providing many examples to illustrate to you the power of these numbers. From these examples, you will be able to discern the reasons why certain people with good mobile phone numbers are able to get what they want easily and receive respect from society while others who own phone numbers with undesirable combinations of numbers are beset with problems and difficulties in their lives. These problems can come from their family, from obstacles at work, from their inability to save up enough money to buy property, or from constantly worrying about their finances. I hope the scenarios provided above have given you a brief idea of how our mobile phone numbers can fundamentally affect the quality of our lives.

Before I delve into the explanations of meanings of number combinations in phone numbers, allow me to take a trip down the memory lane and provide you with some background on my early days in the numerology trade some twenty years ago...

My business partners were very smart. While I was more concerned about the people improving their lives, they were more concerned about their pockets. They managed to think of the costliest way for clients to view these numbers, designing and shaping jewelry such as bracelets, rings and pendants into number like figures to sell to clients. In addition to the jewelry, they designed very expensive number ornaments which customers could purchase to adorn the interior of their homes.

However, they mixed up the meanings of certain numbers on purpose, selecting numbers that were not beneficial for clients and sold it to them. Bearing in mind that these numbers are imbued with their own power and may lead to negative consequences if misused, I could not agree with their unethical business practices and terminated my partnership with them. They are still earning a lot from this venture, misleading the public up till today.

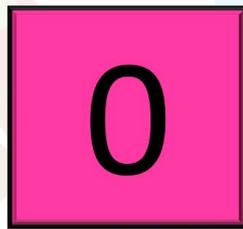

I have chosen to publish this book as I believe that the public has the right to know the truth. It is only right that they know how inappropriate usage of numbers will have a detrimental effect on their life. This is contrary to the manifestation of purported benefits promised by unethical numerology practitioners and businesspeople out there who misuse the effects of numbers for their own monetary gain.

## Misrepresentation of Numbers

The following paragraphs will detail how the numbers 1 to 9 have been misrepresented and the adverse impacts of such misuse.

### Actual Meaning of Number 1: Ambitious, Leading, Independent

**Misrepresented Number 1:** Misrepresented as a leading number, meaning to say that you will become a good leader if you repeatedly look at the number for long enough.

**Negative Consequence:** Prolonged viewing of number 1 will turn you into a 'lone wolf'. You will isolate yourself from others, becoming dogmatic in nature as you insist that your views are nothing but the truth. This will lead to poor interpersonal relationships, gaining you more foes than friends. Needless to say, you will not be able to lead effectively when there is no collective support from the masses.

## Chapter 2: Transformative Potential of Phone Numbers

You will be amazed at how our phone numbers can be leveraged upon to guide our actions in our daily lives. After years of hearing people calling our names, from writing names on worksheets and date of births on legal documents, the effects of our phone numbers, along with the effects of our birthdays and names, have already been deeply entrenched in our left brain through repetitive exposure over the years. This affects the neural pathways in our right brain. Do bear in mind that signals sent out from our right brain are very strong and influential in our decision making, which is not very ideal if our right brains have been programmed to make erroneous decisions automatically.

I will now share with you three examples of the impact of mobile phones numbers on our lives.

I have a customer who is a banker. One day, he asked me a question, ‘Grandmaster Chua, can you tell me if human beings are really controlled by numbers?’

I replied, ‘Yes, every single day of our existence is controlled by numbers. All the numbers that appear for each day has a decisive impact on the choices that you make. Just compare the difference in your quality of life when you were using your old phone number and your life now after you started using your new number. The gradual increase in your wealth, from having one apartment in the past to four apartments today is a result of you using your new phone number.’

However, he replied adamantly, ‘No, all the things that I have gained was a result of my own hard work, not because of the new phone number.’

After hearing what he said, I tried to remind him about his past, ‘Do you remember yourself coming to me 12 years ago? At that point in time, you have already worked for 18 years. In these 18 years, you only had one property and had to slog hard at work. Ask yourself, if you did not agree to change your phone number and continued using your previous phone number for 12 more years to the present, will you have succeeded the way you have now? It is very likely that you will still own a single property and be a typical executive in the company at the beck and call of your boss.’

After changing to the new number that I recommended to him, he received three promotions to his current high post. I asked him, ‘Don’t you think that your new phone number has helped you immensely in achieving these heights?’

Seeing his uncertain face, I proceeded to clarify myself, ‘Your birthday and name belongs to that of a genius, but you did not have a good phone number, therefore you slogged hard for 18 years but did not see returns that commensurate with the hard work that you have put in.

However, after you changed your phone number, you managed to achieve three consecutive promotions. Don't you think that this new phone number has been very good for you?
